

**CANIT**

PRODUCT OVERVIEW

Consider it sealed.

A countertop can seamer for food, drinks, gifts, collectibles and the things you create.

Make it your CANIT.

Choose Black or White housing. Add an optional on-screen logo. Pair compatible containers and lids with the correct machine setup.

Fill. Position. Seal.

Manual filling and loading. Start and Stop controls with a digital counter. The seaming assembly sits behind a clear guard.

Housing	Black or White
Lid format	55 mm nominal, per supplier listing
Lid options	Small-mouth, easy-tear or full-opening*
Container formats	PET and aluminum options; matching setup to confirm*
Customization	Optional on-screen logo; separate quote
Protection	Optional proposed RIOTORO Care plan; terms pending
Electrical / dimensions / weight	Awaiting verified production specification
Cycle rate / duty cycle	Awaiting manufacturer verification

*Confirm the container rim, lid profile, tooling and settings for every combination. Container sizes shown online are supplier options, not a validated compatibility matrix for every unit.

CANIT seals the lid. Filling is separate. Sealing alone does not establish shelf stability or safe storage life. No carbonation, hot-fill or electrical certification claim is made.
